TODAY’S WEBINAR

We will discuss how school districts are taking registration to the cloud and learn best practices for going 100% paperless quickly and safely.

Complete student registration from the safety of your own home

Handle documents and forms submitted by parents from any device

Improve productivity and save your district money

Select the right vendor for a speedy implementation time
MOVING ONLINE

Moving your enrollment process online may seem like an insurmountable task. As leading experts in online registration for K-12 schools, we know how to make the process swift, painless and effective.

In just a few moments we will learn from Brad and Daryl about their experience and results of their early adoption to moving online.
Many families will prefer completing the K-12 registration process online versus in-person because of the convenience factor alone.

*In this time where social distancing is so important, offering online registration is even more necessary.*

With the right registration software, it’s easy to set up. You can even use document management so that families can upload digital scans of essential paperwork such as shot records.
PARENTS AND STAFF WILL THANK YOU

Here are some reasons why online registrations is how your district needs to approach the process during mandated social distancing and for the future.

- It's 100% Paperless
- Quick and Easy Set Up
- SIS Integration
- Clean and Accurate Data
MOBILE-RESPONSIVE UI

Your students and their families are more tech-savvy and mobile than ever before.
In real time know what classes will look like
See who has opted out of photo release
Who has internet access at home
Which 2nd graders have consent for the field trip
Should you issue a 1:1 device to this family
Has all the sport equipment been returned
Did family sign off on the student handbook
Does this child ride bus 22 to dads tonight or bus 30 to moms
Can grandpa pickup this child
What is the health treatment for this child
